

WASTE MANAGEMENT

Policy Statement

The probability of any activity creating zero waste is close to none. As such, Al Naghi Company is aware of its natural obligations towards the environment manifested through initiatives on proactively reducing its environmental impacts. The company adheres to continuously minimize refuse as a result of its daily business activities and to maintain a healthy and safe working environment.

AL Naghi Company's proactivity in promoting an eco-friendly working environment is achieved by embedding the three R(s) – Reduce, Reuse and Recycle – into the organization's culture.

The company commits to;

1. Create a waste management framework e.g. standard operating procedures, to deliver an efficient waste management system in compliance with the local and international environmental legislation(s);
2. Comply with all applicable environmental regulation(s), local and international;
3. Identify all environmental aspect of the business and minimize its impact by applying reduce, reuse and recycle methodology in waste management;
4. Continuously monitor the existing waste management system in order to maintain a safety working environment;
5. Raise awareness among its stakeholders and employees of the shared natural environmental obligations;
6. The inclusion of environmental planning as an integral part of the company's business activities, and;
7. Sustain the established commitment to UNGC – United Nations Global Compact – to always consider the environment in all of our business activities in Al Naghi Company.
